📋 Projects

- **ZenithZone (A online shopping platform):**
  ZenithZone is an innovative online shopping platform that enhances user experiences with features like Auto Search, Voice Search, and personalized recommendations, alongside curated artisan exhibitions and a vibrant marketplace for second-hand items. It transforms every purchase into a journey towards peak satisfaction.

- **CarDetective (A application):**
  CarDetective is a computer vision-based project that tracks car number plates and provides information about the car to authorized personnel, enhancing public safety and law enforcement efforts.

- **EduConnect (A SRS Document):**
  EduConnect is a streamlined platform connecting students, tutors, and guardians, simplifying the search for the right educational guidance. It's a user-friendly hub where effective agreements enhance learning, making education both convenient and harmonious for everyone involved.

- **Task Trek (A java based Application):**
  Task Trek is a Java-based application designed to streamline your productivity by organizing daily tasks and projects efficiently. Experience a clear path to completing your goals with intuitive navigation and powerful task management features.

- **CryptoShield Folder Locker (A Desktop Application):**
  CryptoShield Folder Locker is a security software that encrypts and locks folders on your computer, ensuring that only authorized users can access sensitive files.

- **BookBlossom :**
  BookBlossom is a Python-based, machine learning recommendation system that delivers personalized book suggestions, enhancing readers' literary journeys with perfectly matched titles.

Extra–Curricular Activities

- Office Secretary at IT Club (October 2024 – Present)

Language Proficiency

- Fluent in English alongside my native Bengali.
